Hantu Port - Out Today! : Hantu Port is the new Sniper Assassin Map for HITMAN 2. And it will be available for download 5 PM UTC Today. Whether you choose to play solo as Agent 47 or online coop as either Stone or Knight, you'll be perched above the container yard at Hantu Port. Your objectives are to eliminate all Khandanyang operatives (including 3 main targets) and protect the hostages. Along the way, you will complete challenges, earn score multipliers, upgrade your rifle and climb the leaderboard. Read all about Hantu Port right here: Hantu Port will be available for all owners of Expansion Pack 1 or the Expansion Pass. NOTE: If you own the Expansion Pass, and can't get access to Hantu Port - just restart STEAM.. 2.11 Game Update Released : Earlier today, we released game update 2.11 for HITMAN 2. The 2.11 update addresses multiple issues that have been reported by our community in the first week of release. We've also included a ton of improvements that didn't quite make it into the game for launch. The full release notes can be found here: Included in that post are a few PC-specific issues that we've highlighted below: Bullet Decals We've fixed an issue that could cause graphical corruption when shooting in the same place multiple times, especially on wooden surfaces. PC optimizations We've fixed an issue that could cause frame rate drops and sound distortion on machines with a low number of CPU cores. Simulation Quality We've added an option under Graphics called 'Simulation Quality', which will improve the amount and fidelity of crowds, cloth, destruction and particles system, depending on your CPU. The visual content only applies to the main campaign missions in Miami and Mumbai. The Simulation Quality option also affects audio across all game content. This setting has three options; Base (CPUs with 4 cores or fewer), Better (CPUs with 6 cores) and Best (CPUs with 8 cores or more).. HITMAN 2 Hotfix Released : We have released a hotfix for HITMAN 2 that addresses two critical that we've seen reported since launch. The download will be approximately 200mb. HDR Fix We've made a change to our HDR setup on PC. It is now possible to play HITMAN 2 in HDR in Exclusive Fullscreen. For this to work, it is necessary to disable the HDR and WCG option in Windows 10 under the Display menu. We're continuing to work on and improve this feature in future updates. Phenom CPU Fix We've fixed an issue that could cause players with an AMD Phenom CPU to crash to desktop when launching a HITMAN 2 mission. This issue should no longer occur. We're also continuing to look at all issues reported and working on fixes for future updates.. HITMAN 2 - Hantu Port Trailer : Hantu Port is an all-new Sniper Assassin Map for HITMAN 2 - arriving March 26, for all Expansion Pack 1 and the Expansion Pass owners. This new Sniper Assassin Map transports players to a container yard set on the island of Singapore where Han Ldong and his wife have been kidnapped by a group of highly skilled criminals known as the Heavenly Guard. New Sniper Assassin Map New Targets New Sniper Rifle New Discoveries Coop Welcome to Hantu Port.. Survival Journals is Here/Join Our Discord! : After years of hard work we're finally ready to show you guys what we've been up to.. Game update and server maintenance : Heads-up: We have server maintenance for HITMAN 2. It will begin at 11 am UTC and end approximately 15 pm UTC. During that time, we'll roll out the January update. Patch notes will arrive later today.
